You will not be discriminated against for coverage under this policy based on your race, color, national origin, disability, age, sex, gender identity or sexual orientation.

The Affordable Care Act and You

Nationally, millions of people have received health insurance coverage under the Affordable Care Act (ACA). Here are three things you should know:

You may need to get health insurance coverage.

The Affordable Care Act requires most Americans to have health coverage. Not signing up for a 2017 health plan may result in a federal tax penalty. The penalties are expected to increase each year.

You can get health coverage.

The health care law creates options for many people to get coverage. You also won't be turned down because of a pre-existing health condition, such as asthma, heart disease or cancer.

You may get help paying for it.

Your income and family size may qualify you for cost assistance, including a tax credit that lowers your monthly premium cost, and cost-sharing assistance to help lower your out-of-pocket costs.

Do You Qualify for Financial Assistance?

Based on your income, family size and the health plan you choose, you may qualify for federal financial assistance when you buy a plan through the Health Insurance Marketplace in Montana (Marketplace). This could lower – or even eliminate – your cost for your monthly premium. You can see if you are eligible by visiting the Marketplace.

Text **MTQUALIFY** to **33633** to see if you qualify for federal financial assistance.

Message and data rates may apply. Terms and conditions and privacy policy at www.bcbsmt.com/important_info/.

How Do You Sign Up for Health Coverage?

When you are ready to choose your health plan, go to www.bcbsmt.com, where you can compare all our plans. Choose the one that works best for you and your family.

If you qualify for cost assistance, you will need to go directly to the Marketplace. You will see many choices for health coverage and can compare your options. After you learn about possible cost assistance and choose a plan, you will see how much your cost-sharing will be.

Choosing a Health Plan

Find the choice that fits your budget and needs. Compare our plans to find the coverage you want at a cost that works for you and your family.

Health Plans to Fit Every Budget

We have three levels of health care plans available — bronze, silver and gold. Each plan has different benefits and costs, so be sure to choose the one that fits your needs best. All plans include the same essential health benefits.

The coinsurance listed above is for illustrative purposes only. Your actual costs and ratios may vary based on your specific plan and usage.

What are Essential Health Benefits?

The Affordable Care Act requires that all health insurance plans and HMOs sold on the Marketplace must cover certain basic services that are considered essential to good health. These include:

- Ambulatory patient services
- Emergency services
- Hospitalization
- Maternity and newborn care
- Mental health and substance use disorder services, including behavioral health treatment
- Prescription drugs
- Rehabilitative and habilitative services and devices
- Laboratory services
- Preventive services and chronic disease management
- Pediatric services, including dental and vision care
