Important Notes:

Prior authorization is required for some members/services/drugs before services are rendered to confirm medical necessity as defined by the member's health benefit plan.

Usually, the provider is responsible for requesting prior authorization before performing a service if the member is seeing an in-network provider. Sometimes, a plan may require the member to request prior authorization for services.

Once a prior authorization request is received and processed, the decision is communicated to the provider.

If you have questions, call the prior authorization number on the member's ID card.

This is not an exhaustive list of all codes. Codes may change, and this list may be updated throughout the year. The presence of codes on this list does not necessarily indicate coverage under the member benefits contract. Member contracts differ in their benefits. Always check eligibility and benefits first through the Availity® Essentials (avallity.com) or your preferred web vendor portal to confirm coverage and other important details, including prior authorization or pre-notification requirements and vendors, if applicable. For some services/members, prior authorization may be required through Blue Cross and Blue Shield of Montana. For other services/members, BCBSMT has contracted with Celson Medical Benefits Management for utilization management and related services.
