Signing Up for Health Care Coverage

Getting your health care coverage with BCBSMT is an important decision. Here are a few things to consider before signing up.

When do you sign up?

You can sign up for coverage during the Open Enrollment Period, which begins **November 1, 2019**, and ends **December 15, 2019**. For most people, this is the only chance to sign up for individual health care coverage for 2020.

Some people may be able to sign up after the Open Enrollment Period. You may qualify for Special Enrollment if you have had a major life change, such as a new child, divorce, or job loss.

Can you get help paying for your coverage?***

Based on your income, family size and the type of plan you choose, you may be able to get financial help when you buy through the Montana Health Insurance Marketplace.

*** If you are Native American, the cost-sharing amounts and income levels may be different. Please call 855-593-1515 or contact an independent, authorized BCBSMT agent for more details.

How can you sign up?

Start at www.bcbsmt.com.

You can compare your options, see different benefit levels and get an online quote. You can even see if you qualify for help paying for your plan.

You may also learn more by contacting an independent, authorized BCBSMT agent.

Words to Know

Benefits – The health care items or services covered under a health plan.

Coinsurance – The percentage of the cost you pay for a covered service, while your health plan pays the rest (after you meet your plan's deductible). You pay coinsurance until you reach your out-of-pocket maximum, then your plan will pay 100 percent of the cost. See your Summary of Benefits and Coverage.

Copayment (copay) – The set dollar amount you pay for covered services at the time you receive care or when you pick up a prescription drug. The amount may be different depending on the covered service or prescription drug. See your Summary of Benefits and Coverage.

Deductible – The amount you pay for most covered services before your health plan starts to pay. The deductible resets at the beginning of the calendar year or when you enroll in a new plan. Some covered services may have a per-occurrence deductible. See your Summary of Benefits and Coverage.

In network – Services you receive are considered in network when you use a doctor or other health care provider that has a contract with your health plan. Generally, you may pay less out of pocket when you use a doctor, hospital, or other provider in your plan's network.

Out-of-pocket maximum – This is the most you have to pay out of your own pocket for in-network health care expenses during a plan year. Deductibles, coinsurance, copays and other expenses for in-network essential health benefits (EHBs) apply to this amount.

Understanding Your Options

BCBSMT provides two different kinds of health plans — Blue Preferred PPOSM and Blue Focus POSSM. Here's an overview of how these BCBSMT plans work.

Networks vary and may not include every doctor or hospital in your area, so it is important to research your plan's network before you buy. Also, depending on where you live, some plans may not be available to you. Please visit www.bcbsmt.com or call 855-593-1515 for more information.

Health Plans to Fit Every Budget

We have three levels of health care plans available — bronze, silver and gold. Each plan has different benefits and costs, so be sure to choose the one that fits your needs best. All plans include the same essential health benefits.

Our Security and Dental Plan Options

Learn more about these options by visiting www.bcbsmt.com or contacting your independent, authorized agent.

Blue Preferred Security PPOSM

This is a special catastrophic health care plan for certain people under age 30 and some people with low incomes. This plan has lower premiums than other health plans, but has higher deductibles.

BlueCare DentalSM

BCBSMT has options to provide you and your family with dental coverage. Our dental plans provide coverage for cleanings, preventive services and much more.

Is a Health Savings Account (HSA) Right for You?*

An HSA is a special savings account that you may use to cover a wide range of qualified medical expenses. An HSA helps you to take charge of your health and be responsible for how you spend your health care dollars. For many people, using an HSA is an effective way to help manage the costs of health care. Not all plans are HSA compatible. Visit www.bcbsmt.com or speak with an independent, authorized agent to learn more.

Notice: If you get cost-sharing reductions under your health plan that have the effect of reducing the deductible below the federal government's minimum deductible, you may not be eligible to contribute to a Health Savings Account.

** As a reminder, a Health Savings Account (HSA) has tax and legal ramifications. Blue Cross and Blue Shield of Montana does not provide legal or tax advice and nothing herein should be construed as legal or tax advice. These materials, and any tax-related statements in them, are not intended or written to be used, and cannot be used or relied on for the purpose of avoiding tax penalties. Tax-related statements, if any, may have been written in connection with the promotion or marketing of the transaction(s) or matter(s) addressed by these materials. You should seek advice based on your particular circumstances from an independent tax adviser regarding the tax consequences of specific health insurance plans or products.

Health Care Services That Work for You

To help our members get care in their communities when they need it, we provide case management and utilization management services. We can also help members locate an OB-GYN for specialty care without referrals. You can find out about services that need preauthorization and how to preauthorize at www.bcbsmt.com or by calling Customer Service at 855-593-1515.
