

No-Cost Preventive Drug List Medication Covered at \$0 Cost to You

Effective July 1, 2021

Your health plan may include certain prescription and over-the-counter (OTC) preventive medicines, as a benefit of membership, at no cost to you when you use a pharmacy or doctor in your health plan's network. There is no co-pay, deductible or coinsurance, even if your deductible or out-of-pocket maximum has not been met. Coverage for these medicines can vary according to the type of plan you are enrolled in. Call the Customer Service number listed on your member ID card to find out what drugs are covered at no cost share under your plan.

Below are some examples of drugs that are often used for preventive care. These may be covered under your plan for both adults and children. This list does not include all drugs that may be prescribed for preventive care. It will be reviewed from time-to-time and is subject to change.

Please see the Contraceptive Coverage List for a list of contraceptive methods that may be covered at no cost to you. Age limits, restrictions and other requirements may apply.*

* Some of these products may be covered under your medical benefit if provided by a doctor in your health plan's network.

Prescription coverage for these drugs may vary according to the terms and conditions of the plan. Only retail pharmacies participating in the vaccine network may be used to get a covered vaccination. To find a vaccine pharmacy, visit bcbsmt.com. A prescription may be required to cover without cost-sharing under the pharmacy benefit for non-grandfathered plans. The plan may also require a generic drug to be tried first before the brand version.
