

Have You Been Vaccinated?

You can help protect yourself by getting a vaccine.

Blue Cross and Blue Shield of Montana (BCBSMT) wants to help you protect yourself from illnesses such as the flu, pneumonia, shingles, hepatitis B, tetanus, diphtheria, pertussis, meningitis and HPV. As part of your BCBSMT prescription drug benefit, you and your covered family members may get these select vaccinations at participating pharmacies.*

Find Participating Pharmacies

Many national chain, regional chain and independent pharmacies contract with the vaccine network. To find a participating pharmacy:

- Visit bcbsmt.com and log in to Blue Access for MembersSM (BAMSM).
- Click [Prescription Drugs](#) in the [Quick Links](#) box.
- This takes you to MyPrime.com, the member website of BCBSMT's pharmacy benefit manager.
- Select [Find a Pharmacy](#) and filter for vaccine pharmacies in your network.

You may also call the Pharmacy Program number on the back of your BCBSMT ID card for help in finding a participating pharmacy near you.

Before You Go

Age limits, restrictions or other requirements may apply. Ask your doctor if you should get any of these vaccinations. You can also visit the Centers for Disease Control and Prevention website at www.cdc.gov/vaccines/schedules/index.html for immunization guidelines.

Call your chosen pharmacy location for complete details and confirm:

- The location's participation
- Vaccine supply
- Hours vaccines may be given
- If an appointment is needed

Remember to hand your ID card to the pharmacist when you visit a participating pharmacy to get a vaccination. The pharmacist will submit a claim and collect any copayments, if necessary. Check your plan materials or call the Pharmacy Program number on the back of your ID card to find out what may apply for your particular health plan.

* This applies to BCBSMT members with prescription drug benefits that include coverage for these vaccinations. If you are a member whose prescription drug plan is not administered through BCBSMT, or coverage for these vaccinations are not included in your particular plan, please contact your employer group benefits administrator for information about the availability of vaccinations through your health plan.

MyPrime.com is an online resource offered by Prime Therapeutics LLC, a pharmacy benefit manager contracted by BCBSMT to administer your prescription drug benefit.
